Independent Auditor's Report

To the Board of Directors International Youth Foundation and Affiliates Baltimore, Maryland

Report on the Financial Statements

We have audited the accompanying consolidated financial statements of International Youth Foundation and Affiliates (collectively, IYF), which comprise the consolidated statement of financial position as of December 31, 2014, and the related consolidated statements of activities and cash flows for the year then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of International Youth Foundation and Affiliates as of December 31, 2014, and the changes in their net assets and their cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Summarized Comparative Information

We have previously audited IYF's 2013 combined financial statements, and we expressed an unmodified audit opinion on those audited financial statements in our report dated April 23, 2014. In our opinion, the summarized comparative information presented herein as of and for the year ended December 31, 2013, is consistent, in all material respects, with the audited combined financial statements from which it has been derived.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated April 29, 2015, on our consideration of IYF's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering IYF's internal control over financial reporting and compliance.

Notes to Consolidated Financial Statements

Note 1. Nature of Activities and Significant Accounting Policies

Nature of activities: International Youth Foundation (IYF) and Affiliates (collectively, IYF) are described as follows:

International Youth Foundation – The International Youth Foundation (IYF) is a non-profit organization, incorporated in the state of Illinois. Founded in April 1990, IYF is an independent, international nongovernmental organization, dedicated to improving the conditions and prospects of youth. Working with national and regional organizations, IYF works to identify, strengthen, and expand existing programs that have proven effective in meeting young people's needs. In addition to supporting existing programs, IYF works to increase global awareness of children and youth issues, strengthen the organizational skills of youth program leaders, and increase international philanthropy in support of children and youth.

Resources for Youth, Inc. – In 1998, IYF incorporated Resources for Youth, Inc. (RFY) as a supporting organization. RFY owns the office building which is leased to IYF.

International Youth Foundation Inc, S.A.R.L.A.U. – In 2014, IYF incorporated International Youth Foundation Inc, S.A.R.L.A.U. (IYF-MOR), a Limited Liability Company (LLC), in Morocco to support IYF programs and activities in that region. IYF is the sole shareholder of the LLC.

A summary of IYF's significant accounting policies follows:

Basis of accounting: The accompanying consolidated financial statements are presented in accordance with the accrual basis of accounting, whereby support is recognized when received, revenue is recognized when earned and expenses are recognized when incurred.

Basis of presentation: IYF follows the *Not-for-Profit* Topic of the Financial Accounting Standards Board (FASB) Accounting Standards Codification (the Codification). Under this topic, IYF is required to report information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets.

Principles of consolidation: The consolidated financial statements include the accounts of IYF, RFY and IYF-MOR. All significant intercompany transactions have been eliminated.

Cash and cash equivalents: IYF considers investments in money market funds of \$1,028,036 at December 31, 2014, to be cash equivalents.

At times during the year, IYF maintains cash balances at financial institutions in excess of the federally insured limits. At December 31, 2014, cash balances totaling \$8,091,736 exceeded the limit. However, management believes the risk in these institutions to be minimal. At December 31, 2014, cash totaling \$1,011,668 was held in numerous financial institutions outside the United States, which are not insured by FDIC.

Notes to Consolidated Financial Statements

Note 1. Nature of Activities and Significant Accounting Policies (Continued)

Investments: Investments in equity securities with readily determinable fair values and all investments in debt securities are reflected at fair market value. Dividend and interest income, net of investment fees, is included in investment income in the accompanying consolidated statement of activities. Net realized and unrealized gains and losses on investments are excluded from investment income and are presented separately as other items in the consolidated statement of activities.

IYF invests in professionally managed portfolios that contain U.S. Government and municipal bonds, corporate equities, corporate debt securities, mutual funds and private equity investments. Such investments are exposed to various risks, such as market and credit. Due to the level of risk associated with such investments and the level of uncertainty related to changes in the value of such investments, it is at least reasonably possible that changes in risks in the near term could materially affect investment balances and the amounts reported in the consolidated financial statements.

Grants receivable: Grants receivable are carried at the original or amended grant amount less cash receipts and are further reduced by an estimate made for doubtful receivables based on a review of all outstanding amounts on a quarterly basis. Management determines the allowance for doubtful accounts by identifying troubled accounts and by using the historical experience applied to an aging of accounts. Receivables are written off when deemed uncollectible. Recoveries of receivables previously written off are recorded when received. There was no provision for doubtful promises, based on management's evaluation of the collection of grants receivable, at December 31, 2014.

Pledges receivable: Pledges are recognized as revenue in the year an unconditional commitment is received from the donor; pledges receivable are carried at the original pledge amount less cash received on the pledge. They are reported as increases in the appropriate revenue category of net assets. In regards to allowance for doubtful promises, management's evaluation is based on experience with the donors and collections. All pledges receivable are deemed collectible within one year at December 31, 2014; therefore, there was no allowance for doubtful promises at December 31, 2014.

Property and equipment: Property and equipment with cost in excess of \$5,000 are capitalized and stated at cost. Property and equipment are depreciated on a straight-line basis over the estimated useful lives of the related assets, which are 30 years for the building, 15 years for related improvements and 3 to 7 years for furniture, equipment and software. The cost of maintenance and repairs is recorded as an expense as expenses are incurred.

Valuation of long-lived assets: IYF accounts for the valuation of long-lived assets by reviewing such assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of the long-lived asset is measured by a comparison of the carrying amount of the asset to future undiscounted net cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceeds the estimated fair value of the assets. Assets to be disposed of are reportable at the lower of the carrying amount or fair value, less costs to sell. There were no impairments of long-lived assets at December 31, 2014.

Notes to Consolidated Financial Statements

Note 1. Nature of Activities and Significant Accounting Policies (Continued)

Grants and contributions: Grants and contributions received by IYF are recognized as receivables and revenue when the grant or contribution commitment has been received and all significant conditions of the grant or contribution have been met. Grant and contribution revenue is classified as unrestricted or restricted, based upon the existence or lack of donor-imposed restrictions. Temporarily restricted net assets are reclassified to unrestricted net assets at the time the restrictions are satisfied.

Grants and pledges receivable due after one year are recorded at the estimated present value of amounts to be received, using an average discount rate of 4.0 %.

Grants payable: Grants obligated by IYF are recognized as payables and expenses when the reimbursement request is received from the subrecipient.

Functional allocation of expenses: The costs of providing the various programs and other activities have been summarized on a functional basis in the consolidated statement of activities. Accordingly, certain costs have been allocated among the program and supporting services benefited.

Net asset classification: The net assets are reported in three self-balancing groups, as follows:

Unrestricted net assets include unrestricted revenue and contributions received without donor-imposed restrictions. These net assets are available for the operation of IYF and include both internally designated and undesignated resources.

Temporarily restricted net assets include revenue and contributions subject to donor-imposed stipulations that will be met by the actions of IYF and/or the passage of time. When a restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the consolidated statement of activities as net assets released from restrictions.

Permanently restricted net assets represent funds restricted by the donor to be maintained in perpetuity by IYF.

Foreign currency translation: The functional currency of IYF is the U.S. dollar. The consolidated financial statements are presented in U. S. dollars. The transactions of IYF's foreign operations are generally maintained in the relevant local currency and so assets and liabilities are translated into U.S. dollars at the statement of financial position date at the exchange rate in effect at year-end.

Foreign currency transactions: Transaction gains or losses arise from changes in the exchange rates between the functional currency (U.S. dollar) and the local currency in which the transaction is denominated. They represent an increase or decrease in: (a) the actual functional currency cash flows realized upon settlement of foreign currency transactions and (b) the expected functional currency cash flows on unsettled foreign currency transactions.

Income taxes: IYF and RFY are exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code (IRC). Accordingly, no provision for income taxes has been made in the accompanying consolidated financial statements. IYF and RFY are not considered private foundations.

Notes to Consolidated Financial Statements

Note 1. Nature of Activities and Significant Accounting Policies (Continued)

IYF recognizes the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position are measured based on the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement.

Management evaluated IYF's tax positions and concluded that the entity had taken no uncertain tax positions that require adjustment to the financial statements to comply with the provisions of this guidance. The returns are subject to examination by federal and state taxing authorities generally three and four years, respectively, after they are filed. In 2015, IYF-MOR will file its first tax return in Morocco.

Use of estimates: The preparation of consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenue and expenses during the reporting period. Accordingly, actual results could differ from those estimates.

Prior year information: The consolidated financial statements include certain prior year summarized comparative information in total but not by net asset class. Such information does not include sufficient detail to constitute a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with IYF's financial statements for the year ended December 31, 2013, from which the summarized information was derived.

Subsequent events: IYF evaluated subsequent events through April 29, 2015, which is the date the consolidated financial statements were available to be issued.

	\$ 9,962,931

Interest and dividend income of \$152,259 is net of investment expenses totaling \$39,525.

Note 3. Grants Receivable

All grants receivable are considered to be collectible within one year, unless otherwise stated by the grantor. Grants receivable that will not be collected within one year have been discounted using a current interest rate of 4% at December 31, 2014. Total discount for the year ended December 31, 2014, was \$116.582.

Following is a summary, by years, of grants receivable as of December 31, 2014:

Furniture and equipment	385,832
	3,938,742
Less depreciation and amortization	(3,375,307)
	\$ 563,435

Total depreciation expense for the year ended December 31, 2014, was \$79,222.

Note 5. Board Designated Net Assets

The Board of IYF has designated certain amounts of net assets, as follows:

- Board designated for reserve: The net assets designated for reserve are funds set aside by the Board of Directors as a reserve against current operating losses or for future programs.
- Board designated for endowment: In 2007, the Board of Directors designated \$2,000,000 from its
 reserve funds to establish an endowment. It is the Board's intention to invest the funds in
 perpetuity, consolidating them with permanently restricted donor contributions (see Note 11), to
 create a sustainable income stream for future years.

Note 6. Temporarily Restricted Net Assets

Temporarily restricted net assets include donor-restricted funds, which are only available for program activities or general support designated for future years. Temporarily restricted net assets were released from restrictions during the year ended December 31, 2014, due to the purpose restriction being accomplished.

Changes in temporarily restricted net assets, during the year ended December 31, 2014, were as follows:

	Balance December 31,					Balance December 31,

Note 8. Retirement Plans

Retirement benefits are provided to all employees under a defined contribution plan, the Retirement Savings Plan. All participants have a fully vested interest in the employee contributions made to their accounts. Employer contributions include a variable matching contribution and non-matching contribution, and a defined "safe-harbor" non-matching contribution. IYF has no liability under the plan, other than its annual contribution, which is calculated as a percentage of employees' salaries. The contribution in 2014 was \$617.610.

Additional retirement benefits have been provided to certain executives under a 457(b) deferred compensation plan. IYF has no expense under the plan, other than its annual contribution, which was \$5,350 in 2014. This contribution was calculated as a percentage of employees' salaries in excess of IRC limitations.

Note 9. Contingency

IYF received approximately 47% of its revenue from grants from the U.S. Government that are subject to audit. The ultimate determination of amounts received under these programs is generally based upon allowable costs incurred, which are required to be reported to and subject to audit by the government. Until such audits have been completed and final settlements reached, there exists a contingent liability to refund any amounts received in excess of allowable costs. IYF's management believes that no significant adjustment to these consolidated financial statements, if any, would result from audit findings.

Notes to Consolidated Financial Statements

Note 10. Fair Value Measurements

In accordance with the FASB Codification Topic, *Fair Value Measurement*, IYF has categorized its financial instruments, based on the priority of the inputs to the valuation technique, into a three-level fair value hierarchy.

The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure the financial instruments fall within different levels of the hierarchy, the categorization is based on the lowest level input that is significant to the fair value measurement of the instrument. Investments recorded in the consolidated statement of financial position are categorized based on the inputs to valuation techniques, as follows:

- Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. The types of investments included in Level 1 include listed equities and mutual funds.
- Level 2 Inputs other than quoted prices within Level 1 that are observable for the asset or liability, either directly or indirectly; and fair value is determined through the use of models or other valuation methodologies. Investments which are generally included in this category include corporate loans and certain bonds and government obligations.
- Level 3 These are investments where values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. These inputs reflect assumptions of management about assumptions market participants would use in pricing the investments. These investments include non-readily marketable securities that do not have an active market.

Note 11. Permanently Restricted Net Assets and Endowment

IYF's endowment consists of donor-restricted endowment funds and funds designated by the Board of Directors to function as endowments. As required by accounting principles generally accepted in the United States of America (GAAP), net assets associated with endowment funds, including funds designated by the Board of Directors to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions. The Board of Directors has interpreted the State Prudent Management of Institutional Funds Act (SPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds, absent explicit donor stipulations to the contrary.

As a result of this interpretation, IYF classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund.

The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets, until those amounts are appropriated for expenditure by IYF in a manner consistent with the standard of prudence prescribed by SPMIFA. In accordance with SPMIFA, IYF considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

- The duration and preservation of the fund
- The purpose of IYF and the donor-restricted endowment fund
- General economic conditions and the possible effect of inflation and deflation
- The expected total return from income and the appreciation of investments
- Investment policies of IYF

Notes to Consolidated Financial Statements

Note 11. Permanently Restricted Net Assets and Endowment (Continued)

Endowment net asset composition by type of fund as of December 31, 2014, is as follows:

Return objectives and risk parameters: IYF has adopted an investment policy for endowment assets that attempts to provide a predictable stream of funding to programs supported by its endowment, while seeking to maintain the purchasing power of the endowment assets. Endowment assets include those assets of donor-restricted funds that IYF must hold in perpetuity or for a donor-specified period, as well as board designated funds. Under this policy, as approved by the Board of Directors, the endowment assets are invested in a manner that is long-term oriented and include assets which are not intended for current use. The primary objective is to provide for consistent long-term growth of principal, without undue exposure to risk. Investment performance is measured on a rolling five-year basis. The total return will be expected to exceed the return of a Blended Market Index that represents the target asset allocation. The total return shall exceed the U.S. Consumer Price Index +3%. The investment manager shall rank in the top 50% versus the appropriate manager universe with a similar equity exposure and with a similar investment philosophy. Actual returns in any given year may vary from this amount.

Strategies employed for achieving objectives: To satisfy its long-term rate-of-return objectives, IYF relies on a total return strategy, in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The objectives shall be accomplished utilizing a strategy of fixed income, equities and cash equivalents in a mix which is conducive to participation in rising markets while allowing for protection in falling markets within prudent risk constraints.

Notes to Consolidated Financial Statements

Note 11. Permanently Restricted Net Assets and Endowment (Continued)

Spending policy and how the investment objectives relate to spending policy: Currently, IYF does not have a spending policy. Spending is in accordance with any donor-imposed restrictions. Accordingly, over the long term, IYF expects to allow its endowment to grow annually. This is consistent with IYF's objective to maintain the purchasing power of the endowment assets held in perpetuity or for a specified term, as well as to provide additional real growth through new gifts and investment return.

Note 12. Subsequent Events

The following subsequent events occurred subsequent to December 31, 2014:

- Sale of building In January 2015, RFY sold the office building that is used by IYF as its offices. The proceeds from the sale were \$1,600,000. On January 30, 2015, IYF entered into a lease agreement to rent its current office facility from the purchaser of the building. The term of the lease is 12 months ending on January 31, 2016.
- IYF and RFY Restructure Effective January 1, 2015, all of IYF's accounting and IT personnel, except for the CFO, became employees of RFY. IYF will purchase IT and accounting services from RFY under a shared services agreement that will be directly charged to all IYF projects.

Independent Auditor's Report on the Supplementary Information

To the Board of Directors International Youth Foundation and Affiliates Baltimore, Maryland

We have audited the consolidated financial statements of International Youth Foundation and Affiliates (collectively, IYF) as of and for the year ended December 31, 2014, and have issued our report thereon which contains an unmodified opinion on those consolidated financial statements. See pages 1 and 2. Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The consolidating information is presented for purposes of additional analysis rather than to present the financial position, results of activities and changes in net assets of the individual organizations and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The consolidating information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the consolidating information is fairly stated in all material respects in relation to the consolidated financial statements as a whole.
