Youth in the Caribbean

• Over 60% of the Caribbean population under 30

• School completion rates 20% higher in Caribbean compared to LAC region, yet few complete tertiary programmes

• Highest rates of HIV/AIDS after Africa

• One of the highest levels of violence worldwide, directly impacting youth

• High rates of unattached youth (no work, no study) and youth unemployment (nearly three times the rate of adult unemployment)

• Even those students who have gone through skills training are not always well prepared to enter the work force
New service jobs demand skilled workers

How to Empower Young People

• Socio-emotional and 21st century skills are as important as cognitive/academic skills

• Informal networks are important in the job search

• Internships are important to connect youth to the labour market, and mentors are important to help at-risk youth sustain employment

• Changing skills required by the labour market demand adaptability to different kinds of jobs and life long learning opportunities

SOME OBSERVATIONS

• Increased youth involvement in violence has contributed to popular perceptions of growing insecurity
• Crime and violence among Caribbean youth have become linked to other developmental issues, including high levels of youth unemployment, poor educational opportunities, and feelings of voicelessness and exclusion from national and regional governance processes
• The feelings of insecurity among Caribbean citizens on account of youth violence have stemmed from inadequate attention to youth development and youth empowerment, which has increased the risk of youth offences and victimization
SIX PATTERNS OF YOUTH CRIME

• Youth violence has a gender dimension.

• Violence among pre-adolescents is a growing concern among citizens.

• School violence has escalated
SIX PATTERNS OF YOUTH CRIME

• Youth violence is often a response to the victimization

• Youth violence is closely associated with community violence

• Youth victimization by peers and adults creates an environment for more violence
ANNUAL COST OF YOUTH CRIME ($US)

• GUYANA: 70,672,498, GDP 2.29

• JAMAICA: 624,485,815 GDP: 3.21

                                • Inherent youthful desire to take risks with personal security and safety |
REDUCING RISK & ENHANCING RESILIENCE

Contextualization of programmes:

The principle of inclusivity should be applied in age- and gender-targeted interventions.

Integrated planning and programmes
REDUCING RISK & ENHANCING RESILIENCE

**Coordination and partnership** among Government, NGOs, CBOs & FBOs

**Strengthened police-youth relations**

**Provision of specific alternatives for** offenders and second-chance programmes for school drop-outs
How should one resist violence in communities?
